Ad Recall Uplift

The 1st Preferred Ad Formats for the Strongest Acceptance⁽⁴⁾

Our ad formats are designed to seamlessly integrate into the gaming experience, providing value to both players and brands. With rewarded formats, brands become the player's companion, transforming ads into opportunities rather than interruptions—benefiting both players and advertisers.

Rewarded Video

Full Screen video ads that offer in-game rewards.

Standard Display

In-game display mobile & PC ads, reaching players in a positive mindset.

Playable Ads

Mini-games customized to your brand's message.

Interactive Video

Gamified ads that engage players through interaction.

Motion Interstitial

Impactful, short animation seamlessly integrated in the environment.

Native Integrations

Exclusive branded content at the heart of the player experience of the most popular game franchises.

A Powerful Contextual Targeting Solution

Our advanced targeting capabilities allow us to deliver highly relevant ads based on contextual, age, gender, and interest data, leveraging first-party demographic and behavioral insights from publishers and trusted third-party partners.
